

Riva Pipe Boxing

Riva pipe boxings provide a simple, quick and cost effective method of concealing horizontal and vertical central heating pipe work. Also, the pre-finished hard wearing bonded melamine surface makes Riva resistant to scuffs and scratches as well as being easy to clean.

Available in two casing styles, FSC Riva and Riva 'D', and in a range of sizes, the system also incorporates a range of dedicated accessories, which provide an integrated solution to pipe boxing projects and enables a consistent, high quality finish to be achieved quickly.
