

# Case Study

**Project:**  
Premier Inn

**Description:**  
Forma 350Dia metal column casings are installed at the main entrance of Premier Inn's new Edinburgh Park hotel, situated just off the M8 in Scotland.

With the structural columns standing 3400mm high, the casings are finished in Polyester powder coated RAL 7046 grey.

The casings provide a high-quality finish are also weather-resistant and highly durable.
