

Quadra Column Casings

The Quadra square and rectangular column casings maximise floor space by fitting closely to internal structural columns whilst allowing the maximum design flexibility in terms of the sizes and finishes available.

The range is available in sizes from 300mm to 1000mm and can be configured, for projects requiring square or rectangular section casings to give uncompromised design flexibility for applications in a range of sectors including education, retail, commercial and leisure.

Quadra column casings are available in a choice of standard white melamine, laminated or real wood veneer finishes. In addition, our 'ex-stock' range of standard sizes and finishes can also be delivered next day. Also, Installation is quick and simple as there's no plastering necessary. Quadra casings are a single fix dry trade solution which saves time on-site.

Material thickness: 8mm

Standard length: 3000mm.

Longer lengths can be achieved using an inner collar to link two column casings together

Finishes: Laminate, veneer or white melamine finish.
